Co-Intelligence

Living and Working With AI

by Ethan Mollick

What it's about

Wharton professor Ethan Mollick shows how to team up with AI as a co-worker, co-teacher and coach while preserving human identity. His core point: proper training is what unlocks AI's full potential.

Key themes

Co-worker

Co-teacher

Coach

Nexus

A Brief History of Information Networks From the Stone Age to AI

by Yuval Noah Harari

What it's about

Yuval Noah Harari explores humanity's relationship with information, showing how societies have used it for both progress and control, and how AI-driven misinformation adds a new challenge.

Key themes

Progress

Control

Misinformation

A must-read when you are searching for books about technology

Burn Book

What it's about

Kara Swisher shows how tech visionaries have driven progress while also making it harder. Built around her interviews with industry leaders, it is a lively way to understand the modern tech world.

Key themes

Tech visionaries

Leader interviews

Progress and its
cost

Features leaders such as Mark Zuckerberg, Jeff Bezos and Steve Jobs
